Professional

Front-End Software Engineer with 4.5+ years of experience building scalable SPAs using Angular and React. Proven track record of improving development efficiency by 20%, reducing bug rates by 25%, and delivering enterprise web applications with RESTful API integration. Skilled in CI/CD, Agile, and cloud platforms (Azure, GCP, Firebase).

Core Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS
Frameworks & Libraries: Angular (v12–v14+), React, RxJS, NgRx, Ionic
UI Libraries: Angular Material, PrimeNG, Kendo UI, Bootstrap
Backend Integration: RESTful APIs, PHP (Laravel), .NET Core, Node.js
Dev Tools & Platforms: Git, Bitbucket, JIRA, Firebase, Azure, GCP
Practices: Responsive Design, Cross-Browser Compatibility, CI/CD, Agile Scrum, SOLID Principles, Component-Based Architecture, Performance Optimization

Professional Experience

OpenEyes Software Solutions — **Vadodara, Gujarat**
Software Engineer — ***July 2023 – Present***

- Architected 6+ Angular (v14+) SPAs – EyeExchange, Item Bank, IFMA, Astra, CCI, LMS – integrating with PHP Laravel and Node.js RESTful APIs for thousands of active users.
- Engineered modular, reusable component libraries using Angular CLI and RxJS, achieving a **20% improvement in development efficiency** and reducing time-to-market for new features.
- Applied lazy loading, OnPush change detection, and bundle optimization to improve load times for data-intensive dashboards; enforced SOLID principles across the codebase.
- Drove cross-functional collaboration with QA, design, and backend teams to streamline API data flow and accelerate release cycles.

Brainvire Infotech Pvt. Ltd. — **Ahmedabad, Gujarat**
Associate Software Engineer — ***February 2022 – June 2023***

- Built Angular 12 SPAs for HRMS and GemFind platforms with route guards, observables, and dynamic components to handle complex user workflows and role-based access control.
- Developed role-based CRUD modules for payroll, employee data, and permissions integrated with .NET Core RESTful APIs; created a shared component library cutting UI redundancy across 5+ modules by **˜30%**.
- Leveraged RxJS operators (switchMap, combineLatest, debounceTime) for async API management and real-time interaction feedback.
- Partnered with QA to implement automated UI test cases, **reducing bug rate by 25%** and improving release cycle quality.

L&T — **Vadodara, Gujarat**
Trainee Software Developer — ***August 2021 – January 2022***

- Contributed to front-end development and testing for internal .NET-based web applications; resolved API integration bugs and layout issues across teams.
- Participated in Agile sprint ceremonies, improving UI consistency and contributing to on-time feature delivery.

Education

Parul University — **Vadodara, Gujarat**
Bachelor of Technology – Computer Science and Engineering — ***March 2018 – March 2022***
