ANSHUMAN BEHERA

GenAI Application Developer | LLM Integration | Angular · React · TypeScript
+91-6355122547 | anshu.engg07@gmail.com | LinkedIn | GitHub | Vadodara, Gujarat, India

PROFESSIONAL SUMMARY

Software Engineer with 4.5+ years of experience building enterprise-grade web applications, now specializing in Generative AI application development. Integrates LLM APIs (OpenAI, Anthropic Claude, Google Gemini) into production-style products, backed by an M.Tech in AI/ML from BITS Pilani. Delivered 6+ enterprise Angular applications, improved development efficiency by 20%, and reduced bug rates by 25%. Combines strong full-stack integration, clean component architecture, and CI/CD discipline to ship intelligent, user-facing AI features.

CORE SKILLS

AI / GenAI: LLM API Integration, OpenAI API, Anthropic Claude, Google Gemini, AI/ML
Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
Frontend: Angular (v12–v14+), React, RxJS, NgRx, Ionic, Responsive Web Design
UI Libraries: Angular Material, Kendo UI, PrimeNG, Bootstrap
Backend & APIs: RESTful APIs, Node.js, PHP, Laravel, .NET Core
Cloud & DevOps: Git, Bitbucket, CI/CD, Azure, GCP, Firebase
Engineering: Component-Based Architecture, SOLID Principles, Performance Optimization, RBAC, Agile/Scrum, JIRA

PROFESSIONAL EXPERIENCE

Software Engineer — OpenEyes Software Solutions **July 2023 – Present**
Vadodara, Gujarat

- Integrated Generative AI capabilities into applications via LLM API integration with modern AI platforms (OpenAI, Claude, Gemini).
- Architected 6+ enterprise Angular (v14+) single-page applications, integrating PHP Laravel and Node.js RESTful APIs to power enterprise workflows.
- Engineered modular, reusable component libraries with Angular CLI and RxJS, achieving a 20% gain in development efficiency and faster time-to-market.
- Optimized data-intensive dashboards using lazy loading, OnPush change detection, and bundle optimization while applying SOLID principles.
- Built role-based workflows, reusable forms, API-driven modules, and responsive interfaces for enterprise users.
- Collaborated with QA, design, and backend teams to streamline API data flow, resolve defects, and accelerate release cycles.

Associate Software Engineer — Brainvire Infotech Pvt. Ltd. **Feb 2022 – June 2023**
Ahmedabad, Gujarat

- Built Angular 12 SPAs for HR management and e-commerce platforms using route guards, observables, and dynamic components.
- Developed role-based CRUD modules for payroll, employee data, and permissions integrated with .NET Core RESTful APIs.
- Created a shared component library that reduced UI redundancy across 5+ modules by 30%.
- Applied RxJS operators (switchMap, combineLatest, debounceTime) for efficient asynchronous API management.
- Implemented automated UI test cases with QA, reducing bug rates by 25%.

Trainee Software Developer — L&T **Aug 2021 – Jan 2022**
Vadodara, Gujarat

- Contributed to front-end development and testing for internal .NET-based web applications; resolved API integration bugs and layout issues.

SELECTED PROJECTS

- **Learning Management Platform** (Angular, TypeScript, Kendo UI, REST APIs): Role-based Admin, Faculty, and Student workflows with reusable components, guards, interceptors, and reactive forms.
- **Enterprise Assessment & Subscription Platform** (Angular, TypeScript, Kendo UI, REST APIs): Subscription, assessment, learning-path, results, and progress workflows across enterprise environments.

EDUCATION

M.Tech, Artificial Intelligence & Machine Learning (Result Awaited) **Oct 2022 – Oct 2026**
Birla Institute of Technology and Science (BITS Pilani), Hyderabad

B.Tech, Computer Science & Engineering **Mar 2018 – Mar 2022**
Parul University, Vadodara
