ROLES AND RESPONSIBILITY:

- **Web Development**: Develop, and maintain web applications using React, Angular, JavaScript, TypeScript, and modern technologies.
- **Performance & Quality:** Debug issues, optimize performance, conduct code reviews, and implement unit/integration tests.
- **Collaboration:** Work with designers, product managers, and developers to deliver high-quality solutions in an Agile environment.
- **Version Control & Maintenance:** Use Git for code management, ensure seamless collaboration, and provide technical support for existing applications.
- **Innovation & Improvement:** Enhance user experience, solve complex technical challenges, and explore new technologies for continuous software improvement.

PROFESSIONAL WORK EXPERIENCE:

Name of the Organization, Location	Duration	Designation
OpenEyes Software Solutions	Jully – 2023 to Present	Associate Software Engineer
Brainvire Infotech Pvt. Ltd., Ahmedabad, India	Feb - 2022 to Jun - 2023	Associate Software Engineer
L&T, Vadodara, India	August - 2021 to January - 2022	Trainee Software Engineer

PROJECTS:

Name of the Project	**IFMA (OpenEyes Software Solution)**
Link	https://www.ifma.org/
Responsibilities	Developed a user panel in Angular with API integration in PHP Laravel, implementing design changes and fixing bugs across various scenarios using reusable components.

Name of the Project	**Astra**
Responsibilities	Engineered a robust user panel using React with PHP Laravel API integration, implementing design enhancements and resolving bugs efficiently through the strategic use of reusable components.

Name of the Project	**Item Bank (OpenEyes Software Solution)**
Link	https://itembank.uatbyopeneyes.com/
Responsibilities	Developed a user panel in Angular with API integration in PHP Laravel, implementing design changes and fixing bugs across various scenarios using reusable components.

Name of the Project	**Discussion Board (OpenEyes Software Solution)**
Link	https://eyexchangeconnect.uatbyopeneyes.com/home
Responsibilities	Designed and developed a user panel in Angular, seamlessly integrating APIs using PHP Laravel. Incorporated design modifications and resolved bugs across multiple scenarios while ensuring efficiency through reusable components.

Name of the Project	**GemFind (Brainvire Infotech)**
Link	https://platform2.stage.jewelcloud.com
Responsibilities	Built a dynamic user panel in Angular with Dotnet API integration, focusing on UI/UX enhancements, bug fixes, and optimizing performance through modular, reusable components.

Name of the Project	**HRMS (Brainvire Infotech)**
Link	https://hrms.brainvire.com/
Responsibilities	Created a user panel in Angular, integrating APIs with Dotnet while refining the design, addressing bugs in various use cases, and leveraging reusable components for scalability.

QUALIFICATION:

Course Name	Institution	Year of Completion	Percentage
B.Tech. (Computer Science & Engineering)	Parul University	2022	7.54 SGPA
HSC	Edunova	2018	50%
SSC	Saraswati Shishu Vidya Mandir	2016	77%

PERSONAL PROFILE:

Name	Anshuman Behera
Date of Birth	March 10
Languages known	English ,Odia (MT), Hindi, Gujarati
Gender	Male
Marital Status	Single
Nationality	Indian
Hobbies	Badminton, Reading, Playing Video Games.
